

## **Coronavirus / COVID-19 Precautions**

The Produce Investments Group takes the health and safety of all employees and other key stakeholders very seriously. Since early March 2020, the company has acted in a robust, yet pragmatic, manner to mitigate the risk of COVID-19 impact on employees, customers and suppliers.

A large part of the Produce Investments Group falls directly into the essential business category due to the nature of what we do; Greenvale AP and Jersey Royal supply freshly packed potatoes across a wide range of retail outlets. We maintain regular communications with our customer base across all sectors and have been updating our employees continuously with dynamic policy revisions in light of emerging information in respect of the government's advice and guidance in respect of COVID-19.

Some examples of actions taken to date;

- The Pandemic Continuity Plan is in place across the core potato business.
- Where practical, employees continue to work from home. These employees remain fully functional and contactable.
- A ban on non-essential travel and direct contact meetings remains in-place with remote meetings facilitated via Teams, conference call or similar.
- All non-essential third-party visitors to site have been stopped; and where a visit is absolutely necessary pre-vetting is being undertaken.
- Robust hygiene practices are in place across all production sites.
- Specific COVID-Security measures implemented vary depending on the results of our COVID-19 Risk Assessments, but include;
  - Segregation and bubbling
  - Social distancing
  - Compulsory face coverings
  - Office/meeting room capacity limits
  - Employees being issued with thermometers
  - One-way systems
  - Enhanced cleaning regimes
  - COVID Marshals on site
  - Access to rapid-response COVID-19 Testing Kits

The products we supply are needed in these challenging times; they help provide much of the population with a good quality healthy eating option in a time of need. Demand has been high, and we will continue to service our many customers and consumers accordingly, whilst ensuring our employees remain healthy and safe.

We will continue to monitor the situation and will take all necessary actions to resist the impact of the virus on our business.
